DETAILED ACTION

This action is in response to a request for continued examination dated August 15, 2005.

Claims 1, 2, 5-9, 11, 13-21, 24-29 are pending. The pending claims are subject to a restriction requirement.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 2, 5-11, 13-18, 19-21 drawn to providing a web page to a user based on a record of pre-specified information, classified in class 709, subclass 200.
 - II. Claims 24-29, drawn to providing a web page based on time of day information, classified in class 709, subclass 228.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions listed as Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention has separate utility as follows.
3. Group I teaches a web page provided to a user based on pre-specified information while Group II teaches that a web page is provided to the user based on time of day information.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

See MPEP § 806.05(d).

Art Unit: 2157

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
